The Dr Commr of Madura proposes to purchase a good house which has a large compound for 25-00 Rs. The house is every way suitable for the location of the Hospital for women and children. It is Central cheap, roomy, capable of extension. The Senior Surgeon approves of the idea. The cost will have to be debited to Municipal & Provincial in the proportion of 1/3 and 2/3 respectively. The Municipal Board will have to pay 933-5-4 which it can well afford to do as it has a closing balance of nearly 5500 Rs. The acquisition may be sanctioned subject to the approval of the Municipal Board.

Sir,

With reference to the correspondence regarding the building and quarters for the female hospital to be started at Chickmagalur I have the honor to inform you that a house and compound situated west the Taluq Cutcherri is now for sale for Rs 2500 and to ask you whether it would not be better in every respect to purchase this house and compound outright for the female dispensary instead of building a new one which would take time and for which no suitable site is available.

The advantages of the house now

now proposed are: —

1 It is a large house and is sufficient for a dispensary as well as for a dwelling house for the female hospital assistant

2 It has out houses for cook rooms &c

3. There is a large compound which will allow of future extension of building, if necessary

4. It being next the Taluq Cutcherry females resorting to it would have confidence in the position

5. It is half way between the fort and the pettah and is consequently central.

6. It having a large Compound privacy will be obtained for female patients and which I consider very essential

7. The cost of purchase is less than building a new one including site.

I shall feel obliged by your kindly giving me your opinion on the matter at an early date as the present possessor being in debt is anxious to

Sir,

I have the honour to forward an extract of the Proceedings of the Chikmagalur Municipality held on 9th Feby 94 by which it will be seen that the members are now

...

unwilling to adopt the formerly proposed site and house next the Salutk entcher is but propose that a site lately handed over by Vicar the Gowda to the West of the main street and apart from the main street be selected and that a new Female Hospital be built there and further allege that as the Municipality is too poor to contribute that the Government be requested to pay the whole cost of the building-

Personally I am not inclined to recommend this proposal

as I am of opinion that —

(1.) the house near the Jubilee Catchment is more central and private and more adapted to the purpose and in this opinion Mr Standish Lee agreed with me

(2) that the cost of purchasing and improving the house will be less.

(3) that the Municipality should bear its share of the cost namely ⅓ as Government can hardly be expected to pay for every luxury incurred by

this

the municipality more especially after the very liberal terms they have recently allowed for the water works.

I would therefore recommend that the purchase of the house offered of us Government Procès dumps No 11747-50 & 22 - Jan 29/94 L.J. 492 be adopted.

III Read correspondence regarding the building of the Female Hospital

After a good deal of discussion on certain proposals (1) To build the Municipal Office and Ware-house in the Taluk cutcherry Compound and building the Female Hospital on the present site of the cattle pound, it was decided that the best plan is to build the municipal offices &c on the site of the present cattle pound and the Female Hospital in the Mangoe tope behind the General Assistant Commissioner's court and Treasury as it was thought after inspecting the sites that the cattle pound site was too exposed to public view to allow of Mahamadan Females resorting to it, and that the house directed to

be bought by Government Proceedings of January 1895, was not suitable for the purpose

IV Read docket from Civil Surgeon forwarding bill for Rs 93-4-11 for contingencies diets & incurred during the late cholera epidemic.

Resolved that as all the charges are on account of curative measures adopted by the hospital authorities that the amount be met by that institution and not by the Municipality, which built the temporary cholera shed when these expenses were incurred for the convenience of the Hospital and took preventative measures as well and for which a seperate charge will be made and met by the Municipality.

On the recommendation of the D, Coms and Senior Surgeon, Govt sanction the purchase of a house for the location of the Dispensary. The D Com and the Municipal Board agree in regard giving up of the proposal to purchase the house but they differ in regard to the locality where the dispensary may be building.

D Board's resolution. be approved 9/7/95

The Municipal Commissioners are the best judges as to whether a particular locality would suit Hindu ladies & though the D Com's site were otherwise unsuitable, still if it is too exposed to allow of Hindu women coming in for treatment the object with which the Female Dispensary is founded is frustrated. Under such circumstances & having regard to the precedents in such cases of difference, the Board's resolution may be approved.

Sir

With reference to resolution III of the Chikmagalur Municipal meeting held on 8th June 1895, copy of which is enclosed for ready reference I have the honor to inform you that I beg to differ with the resolution arrived at by the Board that the Female Hospital should be built in the mango tope behind the General Assistant Commissioner's Court and Treasury building, for the reason that if it is built there that the present mango tope which is an ornament to the town and a source of income (this year it realised Rs 80/- and is likely to increase yearly) will be utterly destroyed and thereby cause loss.

2 On the other hand I am of opinion that as it is proposed to remove the present cattle pound to a more convenient site, the present cattle pound site is more

suitable it being more central and equally private as it is proposed to have two entrances to it, one at the back for privacy and one at the front

3. The Municipal offices and Head Katti can well be located elsewhere and if needs be part of the Taluk Kachery compound can be given up for it as the compound is at present too large and being unused becomes untidy.

4 As the question of building this Female Hospital has been long pending I request that you will kindly move Government to decide the matter so that the work can be pushed on with.

5 I beg to enclose the Civil Surgeon's opinion in the matter.

III Read correspondence regarding the building of the Female Hospital:

After a good deal of discussion on certain proposals (1) to build the Municipal Offices and Warehouses in the Taluk Kacheri compound and building the Female Hospital on the present site of the cattle pound it was decided that the best plan is to build the Municipal Offices &c on the site of the present cattle pound and the Female Hospital in the mango tope behind the General Assistant Commissioner's Court and Treasury as it was thought after inspecting the sites that the cattle pound site was too exposed to public view to allow of Mahomedan females resorting to it. And that the house directed to be

by Government Proceedings of January 1895, was not suitable for the purpose.

only case should be taken & time the saturated earth from the 2nd pound removed & renewed with good fresh earth before locating the building there.

When a better place than a mango tope is made available for the purpose, it behoves us to avail ourselves of the opportunity & modify our original resolution. a mango tope is not quite sanitary for a hospital & if a mango tope was first selected for it, it was because there was no choice in the matter at the time.

Dear Mr Sparkes,

Your D.O. of yesterday's date asking for my opinion regarding the suitability or otherwise of the site proposed by you for the female Orphanage & Hospl at Click, viz the present cattle pound, I have.

I certainly prefer the site you have chosen to the one advocated by some of the members of the Board

the sites proposed and selected
for the construction of Municipal
Offices, Octroi Katte' &c and a
Cattle pound respectively are
marked.

The Chief Engineer has

has been addressed in respect to the land required in the Compound wall of the Taluk Cutcherry for the Construction of the Municipal Offices, &c

Only 1/3 of the cost for Constructing the female dispensary will be met out of the Municipal Funds, the remaining 2/3rds being proportionately paid out of Imperial and District Funds and under these circumstances, undersigned is of opinion that the question as regards the Site should be decided by Government. The proposed Site is marked ✱✱✱ in the sketch and its Selection will save one of the best groves in the Town from being destroyed, and will at the same time have all the advantages necessary for a private entrance by women. It

may also be stated that the Con-
struction of the several build-
-ings on the sites now proposed
will greatly improve the appear-
-ance of the Town and will
in no way inconvenience the
public.
